

April 21, 2014

Congratulations to everyone who participated in this year's Teen Tech Week celebration. The photos and partnership descriptions received demonstrate your creativity and enthusiasm for the DIY @ your library theme.

The libraries that completed all of the requirements by the (extended) deadline of April 17, 2014 are listed below. In addition to completing the final report on SurveyMonkey, they submitted details about their Teen Tech Week events. Each is receiving a set of materials to help them extend making in their libraries. Some examples of the tools and materials we are sending out include Squishy Circuit kits, Makey Makeys, Snap Circuit Kits, and Little Bits. We also included Conductive Ink pens, LED Ring Kits, and other e-textile materials to help get the creative juices flowing. Additionally, each of these libraries will receive a smaller version of the Make It at the Library banner to help them promote their making activities.

*Boise Basin Library
Boise Public Library Main Library
Boise Public Library! at Collister
Boise Public Library! at Hillcrest
*Camas County School Library
Centennial High School Library
Central Academy Library
Clearwater Valley High School Library

Pathways Middle School Library
Snake River School Community Library
Timberline High School Library
Wood River Middle School Library

*First-time participant in Teen Tech Week.

The Commission would like to send a special thank you to Tina Roehr in the Meridian School District who implemented making activities in FIVE school libraries and submitted every requirement on time! Way to go Tina!

Thank you again for participating in the 2014 Teen Tech Week celebration! We hope you and your teens had a great time MAKING! Stay tuned for information on October's Teen Read Week. This year's theme is Turn Dreams into Reality and we have some exciting plans up our sleeves!
